

ACTinBOX Classic. Actuator Multifunction 4 outputs 10A / 6 inputs

ZN1IO-AB46A

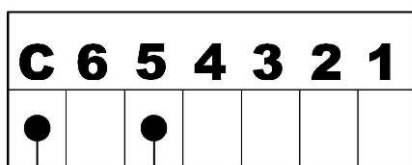

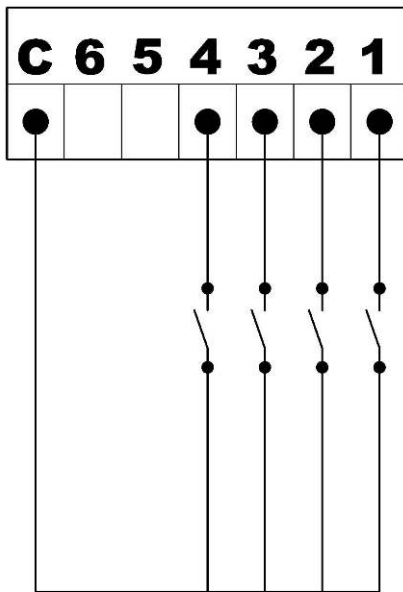

Inputs change

Technical Documentation

The ACTinBOX Classic inputs have been modified in the new version of the actuator in order to connect a NTC temperature probe and a motion sensor.

From serial number 10AAF.

Connection diagrams for ACTinBOX Classic (from serial number 10AAF)
The application program ACTinBOX Hybrid 1.1 or higher version is required
