KNX-DALI Broadcast Interface, 4 Kanäle für je 64 Betriebsgeräte

Sie können die KNX-Zertifizierung unseres Produktes auf der folgenden Seite
<http://www.knx.org/knx-en/knx/knx-products/knx-certified-devices/index.php>

1. Geben Sie die folgenden Suchkriterien ein:

- *Product family: **Interface***
- *Product type: **DALI***

2. Wählen Sie **Z** für *Company Name*.

3. Finden Sie die folgenden Suchkriterien ein:

Company
Zennio

Product Name
**DALI BOX Broadcast 4CH
v2**

Order number
ZDIDL B4V2

The screenshot displays the KNX Search Engine website. At the top, there's a navigation bar with links like Home, Events, Press, and Contact. The main header features the KNX logo and a search bar. Below this, the 'KNX Certified Products' section is visible, explaining the certification process. The 'SEARCH ENGINE' section includes filters for 'Choose a product family' (Interface) and 'Choose a product type' (DALI). A search results table is shown with columns for Company, Product Name, and Order Number. The results list Zennio products, including the DALI BOX Broadcast 4CH and ZDIDLB4V2. A large, semi-transparent overlay with a grid of letters (A-Z) is positioned over the search results, with a hand cursor pointing at the letter 'Z'.

KNX Certified Products

One of the strengths of the KNX system, is that any product bearing with the KNX trademark is not a mere declaration of the manufacturer but is based on conformity testing carried out by KNX accredited third party test labs. During these tests, it is not checked that the device supports the KNX protocol but that its safety data is correct according to the KNX experienced data rules.

This results in devices of different manufacturers and different applications that can be combined to a working installation. However, most of these devices can be handled by the ETS Software.

Interested in the KNX Certification Process, please see the page [Certification of Products](#).

Search Engine KNX registered and certified devices

The underneath search engine allows you to search for KNX registered and certified devices according to product families and product types.

Select first the product family of interest to you (e.g. Illumination), after which you can select for the desired product type (e.g. dimmer); the search engine will now list you all KNX manufacturers with registered certified KNX devices, as well as the order number of these devices.

Should you wish to order these devices, please get into contact with the relevant manufacturer; by clicking the name of the manufacturer, the search engine will display the contact details.
